

Constant Contact ADRN Survey

What do you think would be some common, critical and acceptable areas to have as goals for the ADRN?

Identify areas where limited resources can be shared amongst partner agencies.

Identify specific areas where partner collaboration and cooperation can occur.

If not already done, I suggest creating a referral resource manual specific for ADRN clients and partners.

Hunger, housing & trained care givers

Collaboration of services for individuals that do not fit inside the box...joining together to better serve the difficult cases.

Put the customer first. Always ask, how will this help the customer?

Providers in the same county become more familiar with the services offered by other groups/agencies in their own county (including non-traditional such as faith based groups). I am concerned that an ADRN which includes 9 counties is too expansive. Very few agencies cover nine counties. Could ADRNs organize at the county level and elect a rep from each county to attend regional ADRN meetings as liaison?

Having a viable, affordable, up-to-date, easy to use web-based resource for providers and public.

Make sure everyone is aware of the resources that are available.

Provide information on proposed legislation that would affect this population.

Provide a forum for coordinating any response to proposed legislation.

Increased education.

Increased awareness.

Increased access to this information.

Collaboration among agencies to stretch limited funds.

Utilization of existing services to meet expanded needs.

The ability to locate, assess needs, and identify needs during a disaster.
