The Area Agency on Aging works to assist communities in developing a range of services and opportunities for serving seniors and their caregivers. Efforts are directed toward developing a comprehensive and coordinated community-based service delivery system.

Services provided through funding by the Area Agency on Aging enable seniors to continue living in their homes — independently.

HOW THE PASSPORT PROGRAM WORKS

PASSPORT is an Ohio Medicaid waiver program. *This is how to get started in the program:*

- A PASSPORT assessor will visit the home to conduct a long-term care consultation, evaluate the individual's in-home needs and determine if the individual meets the program's eligibility requirements. If individuals meet the program's eligibility criteria, they are enrolled and assigned a PASSPORT case manager.
- The case manager will work with the consumer, and/or a representative, to develop an individualized plan of care that enables the consumer to remain in a home setting. The plan of care is adjusted as needs change.
- Individuals who do not meet the PASSPORT program's requirements will be offered information on other programs and services that may assist them.
